

How does the weather affect our lives?

Our Weather

The weather in the **United Kingdom** can change from day to day. The four **seasons** have particular weather patterns. You could keep a weather diary by measuring the **temperature** (using a **thermometer**) and **recording** your **observations**.

Different instruments can be used to measure and **record** the weather.

change

Countries around the world have different **climates**. Countries near the equator have hotter **climates** and the Arctic and Antarctic have much colder **climates**. **Climates** can **affect** many things, such as which plants can grow. Many animals are specially adapted to the climate they live in.

Climates

How the Weather Affects Us

The weather **affects** what we do and what we wear. If it is rainy, we wear **waterproof** clothes when we go outside.

If it is hot, we need to wear sun cream and a sun hat.

Key Questions

- Can you identify seasonal weather patterns in the United Kingdom?
- Can you identify daily weather patterns in the United Kingdom?
- Can you locate hot and cold areas of the world?
- Can you locate the equator, North Pole and South Pole?
- Can you locate Europe, Africa and the Antarctica on a globe/map?
- Can you observe/record the weather at our school and talk about your findings?
